## Volume 59 (1991)

**No. 1**

J.A. Teruel, F. Soler and J.C. Gómez-Fernández (Murcia, Spain), *On the effect of lysophosphatidylcholine, platelet activating factor and other surfactants on calcium permeability in sarcoplasmic reticulum vesicles* 1

J. Villalaín and M. Prieto (Murcia, Spain and Lisbon, Portugal), *Location and interaction of N-(9-anthroyloxy)-stearic acid probes incorporated in phosphatidylcholine vesicles* ..... 9

E. Perochon, A. Lopez and J.F. Tocanne (Toulouse, France), *Fluorescence properties of methyl 8-(2-anthroyl) octanoate, a solvatochromic lipophilic probe* ..... 17

D.F. Liau and S.F. Ryan (New York, NY), *Purification of surfactant protein A from dog lung by reconstitution with surfactant lipids* ..... 29

H. Mozaffary (Stockholm, Sweden), *On the sign and origin of the surface potential of phospholipid monolayers* 39

S.D. Stamatov and S. Gronowitz (Plovdiv, Bulgaria and Lund, Sweden), *Phosphocholine-like derivatives of some steroids via their 1,2-cyclic monoalkyl-rac-glycerothiophosphates* ..... 49

J. Grdadolnik, J. Kidrič and D. Hadži (Ljubljana, Yugoslavia), *Hydration of phosphatidylcholine reverse micelles and multilayers — an infrared spectroscopic study* ..... 57

T. Thuren and P.K.J. Kinnunen (Winston-Salem, NC and Helsinki, Finland), *A continuous fluorometric assay for phospholipase C from Clostridium perfringens* ..... 69

J.R. Deverre, A. Gulik, Y. Letourneux, P. Couvreur and J.P. Benoit (Châtenay-Malabry, Gif-sur-Yvette, La Rochelle and Angers, France), *Synthesis and aqueous organization of 1,3-dipalmitoyl-2-(4-aminobutyryl) glycerol · HCl: a diglyceride prodrug* ..... 75

F.D. Gunstone (Fife, U.K.), *High resolution NMR studies of fish oils* ..... 83

**Short communications**

R.L. Glass (Beltsville, MD), *Effect of herbicides on phase transitions of dipalmitoyl phosphatidylcholine vesicles* 91

B. Dayal, G. Salen and V. Dayal (Newark and Raritan, NJ), *The use of microwave oven for the rapid hydrolysis of bile acid methyl esters* ..... 97

Announcement ..... 105

**No. 2**

D. Acquotti, G. Fronza, E. Ragg and S. Sonnino (Milan, Italy), *Three dimensional structure of GD1b and GD1b-monolactone gangliosides in dimethylsulphoxide: a nuclear Overhauser effect investigation supported by molecular dynamics calculations* ..... 107

A. Delgado, M. Ruiz, F. Camps, S. Hospital and A. Guerrero (Barcelona, Spain), *Synthesis of potential inhibitors of the biosynthesis of the sex pheromone of Spodoptera littoralis. Part I: Monofluorinated fatty acids* ..... 127

G. Klose, B. König, V.I. Gordeliy and G. Schulze (Leipzig and Merseburg, F.R.G. and Moscow, U.S.S.R.), *Incorporation of phosphonic acid diesters into lipid model membranes. Part II. X-ray and neutron diffraction studies* ..... 137

P. Tchoreloff, A. Gulik, B. Denizot, J.E. Proust and F. Puisieux (Chatenay Malabry, Gif-sur-Yvette and Angers, France), *A structural study of interfacial phospholipid and lung surfactant layers by transmission electron microscopy after Blodgett sampling: influence of surface pressure and temperature* ..... 151

M. Hofer, R.Y. Hampton, C.R.H. Raetz and H. Yu (Graz, Austria, Madison, WI and Rahway, NJ), *Aggregation behavior of lipid $IV_A$ in aqueous solutions at physiological pH. 1: Simple buffer solutions* ..... 167
C.A. Brearley, N.A. Hodges and C.J. Olliff (Brighton, U.K.) *Membrane specificity of non-monotonic trends in cation-mediated injury to rapidly frozen phospholipid vesicles* ..... 183
A. Ambrosini, E. Bertoli, F. Tanfani and G. Zolese (Ancona, Italy), *Effect of the fungicides tributyltin acetate and tributyltin chloride on multilamellar liposomes: fluorescence studies* ..... 189

**No. 3**

E.A. Disalvo (La Plata, Argentina), *Optical properties of lipid dispersions induced by permeant molecules* 199
R. Korth and M. Middeke (Munich, F.R.G.), *Long time incubation of monocytic U 937 cells with LDL increases specific paf-acether binding and the cellular acetylhydrolase activity* ..... 207
D.G. Rhodes and A. Singh (Farmington, CT and Washington, DC), *Structure of polymerizable lipid bilayers IV: mixtures of long chain diacetylenic and short chain saturated phosphatidylcholines and analogous asymmetric isomers* ..... 215
T. Ioneda and E.T. de Almedia (São Paulo, Brazil), *Time course dependent changes in contents and physical properties of glycolipid species in Rhodococcus rhodochrous* ..... 225
M. Lafleur, I. Samson and M. Pézolet (Quebec, Canada), *Investigation of the interaction between melittin and dipalmitoylphosphatidylglycerol bilayers by vibrational spectroscopy* ..... 233
M.C. Dai, H.B. Chiche, N. Düzgünes, E. Ayanoglu and C. Djerassi (Stanford and San Francisco, CA), *Phospholipid studies of marine organisms: 26. Interactions of some marine sterols with 1-stearoyl-2-oleoyl phosphatidylcholine (SOPC) in model membranes* ..... 245
S. Adam and F. Kaufmann (Basel, Switzerland), *A new class of potent antiproliferative glycolpids* ..... 255

**Short communications**

A.N. Pinchuk, B.I. Mitsner and V.I. Shvets (Kharkov and Moscow, U.S.S.R.), *1-O-benzyl-2-O-methyl-rac-glycerol: a key intermediate for synthesis of ether glycerolipids* ..... 263
F. Mergen, D.M. Lambert, J.H. Poupaert, A. Bidaine and P. Dumont (Brussels, Belgium), *Synthesis of 1,3-diacylaminopropan-2-ols and corresponding 2-acyl derivatives as amide isosteres of natural lipids* ..... 267
